

# **COUNTERTOP MULTI-FLEXIBLE LINE**

# COUNTERTOP MULTI-FLEXIBLE LINE

For chefs who need a highly specialized cooking system when working in a small space, they must pay particular attention to comfort and safety. The characteristics of moving at any time and an affordable price attract more chefs in small and medium-sized restaurants to turn to induction cookers. Induction technology heats the pot body, not the surface or surrounding area, so almost no heat is radiated into the air. Keeping the temperature in the kitchen cool is a great benefit. Whether it is frying, stir-frying, stewing, keeping warm and other cooking methods, the countertop induction cooker can do this perfectly. The 3500W light-duty line can achieve intermittent heating with the minimum power of 1000w to help keep food warm. Medium-duty line and heavy-duty line provide more power options, and you will benefit from the simplest knob or button operation.

#### COUNTERTOP MULTI-FLEXIBLE LINE: LIGHT DUTY

PORTABLE COUNTERTOP INDUCTION COOKER

#### **MODELS**

LT-TMP-A335

#### **FEATURES**

- Push-button control with a timer to read the cooking-time
- Designed with small size and light weight, easy to move
- Available intermittent heating at 1 power level
- Smooth and beautiful glass-ceramics surface, easy to clean
- Four flared feet design to prevent the cooktop from moving
- No open flame makes this a safer
- Using German "Infineon" IGBT chip
- 95% energy efficiency
- CE approved
- One year parts warranty

# **SAFETY FEATURES**

- Over-heat protection
- High voltage protection
- Low voltage protection
- Overcurrent protection
- Dry burn protection

#### **DIGITAL CONTROL MODELS**

- Power-on and heat-on indicator lamps
- The fault code display with built-in protected controls
- Push button controls (Constant Temperature, Timer, Soup, Firepower +/-)

# **APPLICATION**

Cafes bar, bakery, food truck, traveling food stalls and fast food restaurant.

# **MANUAL CONTROL MODELS**

• Push-button control

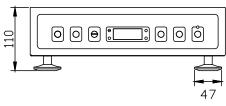

#### **COUNTERTOP MULTI-FLEXIBLE LINE: LIGHT DUTY**

#### COUNTERTOP MULTI-FLEXIBLE LINE: MEDIUM DUTY

#### **COUNTERTOP INDUCTION COOKER**

#### **MODELS**

LT-TMP-B135 LT-TPM-B105

#### **FEATURES**

- #304 stainless steel housing, fully pressed seamless top
- Surface with 4mm thickness high temperature resistant glass-ceramics, easy to clean
- 360° knob switch control, easy to operate
- 8 level power adjusting for high-speed heating
- Built-in turbofans for quicker cool-down
- Four flared feet design can prevent the stove from moving
- Using German "Infineon" IGBT chip
- 95% energy efficiency
- CE approved
- One year parts warranty

# **SAFETY FEATURES**

- Over-heat protection
- High voltage protection
- Low voltage protection
- Overcurrent protection
- Dry burn protection

#### **DIGITAL CONTROL MODELS**

- Power-on and heat-on indicator lamps
- Corresponing power level with LED display
- The fault code display with built-in protected controls
- Push button controls for easy cleaning

# **APPLICATION**

Cafes bar, bakery, food truck, traveling food stalls and fast food restaurant.

# **MANUAL CONTROL MODELS**

• Knob power control, from 0 level to 8 level (3500w/5000w)
